Mark's Electric has been providing temporary electrical services for exhibitors at the Farm Progress Show for over 30 years and at Husker Harvest for 10 years.

We are dedicated to providing the best possible work for our customers.

Mark's Electric is an independent contractor. Any services provided are billed separately from fees that are paid to the Farm Progress Show.

Electrical fees paid to Farm Progress Companies are for **availability** of electrical outlets located in the pedestals provided on the show grounds.

If an exhibitor's needs **exceed** a standard extension cord to the nearest electrical pedestal, we will be happy to work with your company in determining your needs and providing for those needs in the best possible way.

Mark's Electric provides temporary lighting needs as well as electrical needs for our customers.

Please call to speak with us or email us about your electrical and lighting needs or if you have any questions about our services. Early planning in placement of displays would be preferred especially for those that may be located farther away from electrical pedestals.

Any work requests **must** be accompanied by the above form. Without the form we have no way of tracking the job progress.

We will make no promises of completion of work if this form is not received by us before August 1 **with** a completed drawing of your needs and locations. We will still accept requests after August 1<sup>st</sup>, but we make no guarantees of completion.

**We reserve the right to reject any job requests that do not meet the NEC, or that our insurance carrier is uncomfortable with.**
